Use this template to help you set up a project schedule.

What	content	interface	documentation	critical	finish date	start date	requirements
What is the component	Is it part of the content?	Is it an interface element?	Is it part of documentation (this includes permissions, questions, etc.)?	Is it a critical element?	When do you need it in order to do what's next?	When do you have to start it in order to finish it on time?	What do you need to do this?
